OPERATORS:

+ : addition operator
- : subtraction operator
* : multiplication operator
***/* :** division operator
% : modulus operator
> : greater than operator
< : less than operator
>= : greater than or equal to operator
<= : less than or equal to operator
&& : logical AND operator
II : logical OR operator
! : logical NOT operator
++ : increment operator
– : decrement operator
= : assignment operator
!= : not equal to operator
+= : add and assign operator
-= : subtract and assign operator
*= : multiply and assign operator
***/=* :** divide and assign operator
%= : modulus and assign operator

Identifiers: [a-z]⁺

Int: ('-'+ ^) [0-9]⁺

Float: [0-9]*.[0-9]⁺

Char: '(A-Z)'

Str: (aA-zZ).(_(aA-zZ))*

PUNCTUATORS

; : Semicolon
(: Open Bracket
) : Closing Bracket
{} : Open and Closing Curly Bracket
. : Fullstop/dot

Comments**:**

***/* :** Single Line
/></ : Multi Line
